

## **Paperless Billing & Auto Pay**

Rogers Water Utilities offers **paperless billing** and **auto pay** for customers. These services provide secure, convenient ways to receive and pay your monthly water bill.

With paperless billing, you can view your bill as soon as it is generated. You never have to worry about having your bill lost in the mail or being away from home when the bill arrives. Since Rogers Water Utilities currently prints over 25,000 bills per month, the environmental impact of paperless billing is significant. When you sign up for this service, you will receive a monthly email with your current bill attached.

Along with paperless billing, RWU also offers electronic bill payment. Hassle-free options include payment by e-check or debit/credit card. Payment can be made online or by using the automated phone system at 479-621-1142. On the RWU Customer Portal, you can add your preferred payment method and set up auto pay for recurring payment of your monthly bill. There is no added convenience fee for using these options!

Sign up for paperless billing, make an electronic payment, and manage your auto pay on the RWU Customer Portal. Visit our website at <https://www.rogerswaterar.gov> and click "My Account" at the top to get started.
